

Imagine You...Robbed Blind By A Criminal You Can't Even See

*It's happening in your neighborhood.
Here's how you can avoid being the next victim.*

J. A. Venezia

Special / Retail Press Newswide

Imagine, late one night, you head to the ATM to grab some quick cash... You carefully scan your surroundings to make sure you're alone... You hold your keys in a defensive grip... ready for anything... You press "Fast Cash" and hit twenty bucks... the machine whines and shutters as it processes your simple request... But what happens next is SHOCKING...

Instead of coughing up your quick twenty the machine barks that you have insufficient funds. It spits a receipt at you that shows your balance is ZERO. That's impossible! **You just put money in the bank yesterday...**

You've been robbed and you didn't even know it happened. Your identity has been stolen. You've been cleaned out. Every dollar gone in a split second. Your credit cards too. All charged to the max with purchases you never made.

I'm writing you because this is urgent. If you haven't heard, identity theft is the fastest growing crime in America. But hang on. I'm not selling you identity theft protection or anything like that. I'm a car dealer. I'm Tim Welch, the General Manager of Lidtke Motors right here in Beaver Dam.

Some people may think that car dealers are part of the problem. Maybe some are, but I'm not. We go to great lengths to ensure your personal information is protected. But that's not good enough. I want to do something more to help....

I'm going to give you a free gift that can help you avoid being a victim. More about that in a just a sec. But first...

Something You Need To Know

According to the Federal Trade Commission, 9.9 MILLION people were victims of identity theft just in the last year. On average an identity theft case takes about 607 hours to resolve.

Do you have that much time to spend outside your job and your family? How would you deal with it?

Many who have experienced identity theft say it feels similar to being the victim of a violent crime. They feel violated.

This whole terrible ordeal can be avoided and it won't cost you a dime. I've gone out and found a rock solid company that offers identity theft protection and **I've secured one year of protection for you for free.**

That's right. I'm giving you one year of identity theft protection for free. At abso-lutely NO COST to you. You don't have to make a purchase. You don't even need to take a test drive.

Why Would I Give You This Expensive Protection For FREE?

That's a good question. Because the way the economy is right now it's predicted that identity theft cases are going to skyrocket. You've probably seen on the news that the automotive industry is hurting and a large part of the problem is the banking and credit industries.

Identity theft is going to be the next credit crises and if we don't do something to help local residents now they may never be in a position to be approved to buy a car in the future. I'm trying to save your credit and hopefully put you in position to buy a car now or in the future, and hopefully consider me when the time comes.

How To Know If Your Identity Has Been Compromised

Hopefully your identity has not been compromised... YET. But wouldn't you like to put your mind at ease and know for sure?

When you come in to pick up your certificate for one year of free identity theft protection, we'll be able to check your credit and give you a bit of feedback. You'll leave knowing where you stand. Knowledge is power.

If for some reason we find you may have been victimized, don't worry. We can help put you on the road to recovery and give you the tools and information you'll need to make recovering your identity and your losses less painful, less time consuming and a lot less costly.

If you're clean (hopefully that's the case), you'll have a year of identity theft protection for free and you'll be able to rest easy knowing that your identity is yours and yours alone.

Plus you'll get a chance to see a whole bunch of amazing vehicles that can make your life and driving experience more fun and a whole lot more stress free. We can help you find the vehicle of your dreams and have you driving home in a nicer, newer vehicle for the same payment or possibly lower.

Here's How You Can Get Your FREE Year of ID Theft Protection

It's simple, just come on down to Lidtke Motors. You probably already know where we are...right next to Walgreens on Park Avenue (Highway 33).

When you come in, we'll give you a certificate for the free protection from a top identity theft protection provider. No purchase is necessary and you won't be hassled. We're doing this as a service to our community. We know it's necessary if we are going to help the economy get back on its feet and grow.

It's our gift to you. We'll see you soon.

I only have a limited number of these certificates. Don't wait... or you'll miss out on protecting your identity for another year.

**THIS MONTH ONLY AT
LIDTKE MOTORS**
